

KIID - ALCUR SELECT

Key investor information

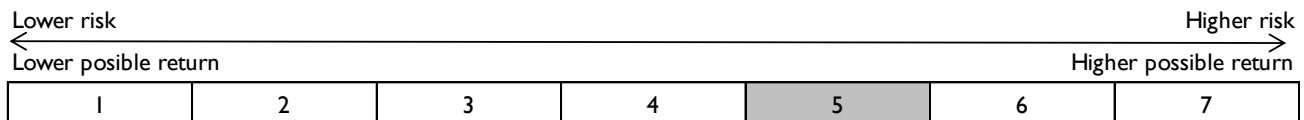

This KIID is intended for investors and provides the basic facts regarding ALCUR SELECT. The KIID is not a promotional material. It contains information required by law to help you understand what an investment in the fund involves and the basic risks associated with the fund. It is recommended that you read it and meet with the managers, to make an informed investment decision.

ALCUR SELECT, ISIN SE0011167121. Managed by ALCUR FONDER AB reg. No. 556703-4870, an independent AIFM.

Objectives and investment policy

ALCUR SELCECT is an AIF, long biased equity fund. It has an absolute mandate which means, among other things that the fund may concentrate its holdings to fewer positions than the average equity fund. The fund's objective is to achieve a good risk-adjusted returns over time. The fund does not compare its returns with an equity index but uses the risk-free interest rate (SSVX90 + 5 percentage points) as its benchmark. In order to give investors an idea of the fund's returns relative to the stock market we use the index OMXSPI. ALCUR SELCET focuses on Nordic small and midcap stocks. The fund may invest in transferable securities, money market instruments, mutual fund shares, and place money in an account of a credit institution. Short selling and derivatives can be used as part of the strategy. The investment process is value oriented, with the intent to identify companies that we consider under- or overvalued. The fund normally leaves no dividend. Income is reinvested in the fund. Fund units are bought monthly and sold quarterly. Recommendation: this fund may not be unsuitable for investors who plan to redeem their money within five years.

Risk / Return indicator

The risk/return indicator shows the relationship between risk and potential return of an investment in the fund. The indicator is based on the fund's development over the last 5 years. It is estimated to belong to category 5. Category 1 does not mean that a fund is risk-free. The fund may, over time, move both to the right and to the left of the scale. The indicator is based on historical data and is not a guarantee of future risk/return. The indicator reflects the most important risks in the fund, but not the risk of not being able to redeem or subscribe in the fund (liquidity risk) during extreme conditions on the stock markets.

Fees

Fixed fee is paid monthly to the AIFM and amounts to 1 per cent/year. In addition to the fixed compensation a performance-based fee equal to 20% of the portion of the total return that exceeds the fund's benchmark (the average interest rate on 90-day Swedish Treasury bills, SSVX90 + 5 percentage points) paid quarterly. Any subscription or redemption fee will be paid to the fund. No such fees are currently in place.

One off fees

Entry fee	Max 5%	Currently no fee
Exit fee	Max 0,5%	Currently no fee

Above is the max fee charged before you invest. Currently 0% charged.

Yearly fees

Fixed fee, paid monthly 1%/12 1%

Fees under certain conditions

Performance fee 20% of return above high watermark (SSVX+5%units) 2%

Performance fee last 12 months

The fund applies a "high watermark", which means that if the return is less than the benchmark no performance-fee is paid until earlier underperformance has been compensated. If a unit-holder redeems units with accumulated underperformance (under high watermark), the holder does not receive a refund at the exit. The high watermark is not compounded with interest.

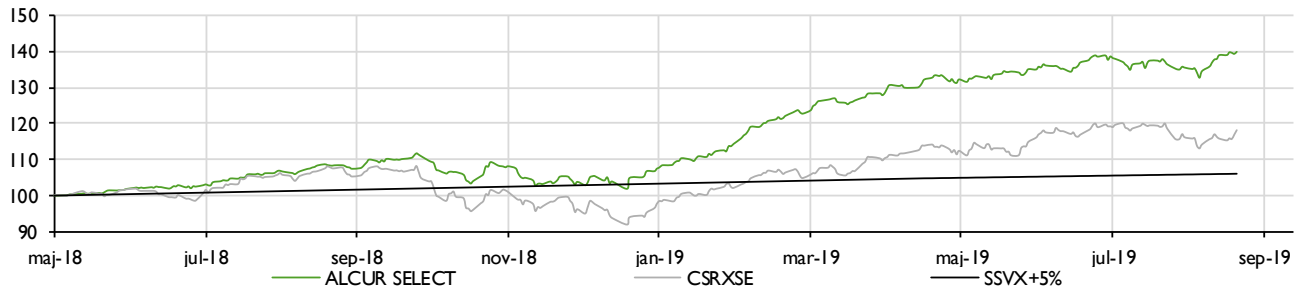

Fees represent payment for the fund's expenses such as marketing and distribution. These reduces the fund's potential return.

Past results

The fund's result is calculated after deduction of the annual fees. The fund has not had and does not have any subscription or redemption fees. The value for each year is calculated in Swedish kronor and with dividends reinvested. Data refer to unit-holders who participated in the fund since inception.

KIID - ALCUR SELECT

Past performance is no guarantee of future returns. There is no guarantee that you will not lose all the money you invest.
